

Externe Stellenausschreibung Reg.-Nr. 7-042/25-D

Modern, interconnected, conscious of tradition: Martin Luther University Halle-Wittenberg (MLU) is the oldest and largest university in the State of Saxony-Anhalt with a history dating back more than 500 years. Today more than 20,000 students are enrolled at the university. MLU's core research areas are in the nano-sciences and biosciences, the Enlightenment, as well as in social and cultural research. The university is also home to a range of small disciplines, some of which can be found nowhere else in Germany. The university has excellent national and international ties, and works closely together with leading research institutes, industry, and more than 250 universities around the world.

The Martin-Luther University Halle-Wittenberg, Faculty of Medicine, Clinic for Internal Medicine IV offers a temporary position in the EFRE-funded project "Mitteldeutsches Zelltherapie-Zentrum (MZZ) -Standort Universitätsmedizin Halle: Institut für Zelltherapie Halle (IZH)" starting as soon as possible until 31.12.2027 of a

Research assistant (m-w-d)

in full-time.

The salary will be according to Entgeltgruppe 13 TV-L, depending on the assigned tasks and individual qualifications.

Your tasks:

- scientific contribution to EFRE-funded project on research, manufacturing and application of cell therapeutics
- work on the preclinical development and testing of cell therapy products, including CAR-T cells
- preparation and implementation of the clinical application of these cell therapy products
- creation of quality management processes and documents based on Good Manufacturing Practice (GMP) and Good Laboratory Practice (GLP)
- interdisciplinary processing of translational projects
- presentation of scientific data at national and international congresses
- preparation of scientific manuscripts and applications for research funding

Your profile:

- completed scientific university degree (diploma/master's degree) in biochemistry, biology or a comparable course of study
- extensive experience in the isolation and cultivation of primary human cells
- strong experience in flow cytometry, cytokine determination, gene expression analysis and analysis of in vivo material
- experience/knowledge of GMP
- desirable experience in the production and testing of cell therapeutics
- experience/knowledge in quality management, quality assurance and process optimization
- ability to quickly familiarize yourself with new problems and complex issues
- ability to work in a team and independently
- goal-oriented and responsible way of working
- excellent IT skills (MS Office)

- German language skills at C1 level
- highly proficient in spoken and written English

Applications of disabled candidates with equivalent qualifications will be given priority. Women are particularly encouraged to apply. Applicants with a foreign qualification have to submit the Statement of Comparability for Foreign Higher Education Qualifications issued by the Central Office for Foreign Education (<https://www.kmk.org/zab/central-office-for-foreign-education>).
